

Title: Supplemental Nutrition Assistance Program Pre-Screening Tool.
OMB Number: 0584–0519.
Expiration Date: January 31, 2015.
Type of Request: Revision of a currently approved collection.

Abstract: In June 2003, the Food and Nutrition Service (FNS) deployed an interactive web-based pre-screening tool that can be utilized by the general public to determine potential eligibility for benefits in the Supplemental Nutrition Assistance Program (SNAP). The tool has been modified since the last revision of this collection to maintain ease of use. Once the user enters household size, income, expenses and resource information, the tool will calculate and provide the user with an estimated range of benefits that the household may be eligible to receive. Since SNAP eligibility and benefit amount may vary by location, FNS makes it clear that the tool is only an estimator and the household will need to contact the local agency to determine actual eligibility and the appropriate benefit amount. Other data collected are:

- State: State or territory in which the user resides;

- Number of People: Number of people living in the household;
- Migrant Workers: Is anyone in the household a seasonal or migrant farm worker;
- Homeless: Is the household homeless or living in a shelter;
- Citizenship: Whether each member is a U.S. citizen;
- Utility expenses: Whether client is billed for utility costs;

Although the tool also requests the name and age of the user, FNS does not retain this information nor does it request other personally identifiable information such as social security numbers, birthdays, etc. of the household members. FNS estimates it will take approximately 402, 534 users about 10 minutes (0.167 hours) to provide the required information to receive potential eligibility benefit information using the pre-screening tool. Users are expected to access the system once for a total annual response of 402,534. FNS estimates 67,223 burden hours for this activity. Once the user logs out of the system, none of the user-provided information is retained by FNS.

In reviewing National Databank program participation data for FY 2012

to FY 2014, it was noted that a peak in household participation occurred in FY 2013. Although we estimated a 1.65 percent difference in participation levels since the last extension of this collection, the trajectory of current participation levels suggests that household participation in SNAP may level off for FY 2014. Based on this analysis, and the number of potential applicants estimated to use the prescreening tool, the current burden inventory is 66,132; FNS projects an annual burden of 67,223 hours, representing an increase of 1,091 hours.

Affected Public: Individuals and Households, potential SNAP clients.

Estimated Number of Respondents: 402,534.

Estimated Number of Responses per Respondent: 1.

Estimated Total Annual Responses: 402,534.

Estimate Time per Response: 0.167.

Estimated Total Annual Burden: 67,223.

Because none of the data entered by users is retained, there is no recordkeeping requirement associated with this information collection.

Certain Activated Carbon From the People's Republic of China; 2013–2014; Partial Rescission of the Seventh Antidumping Duty Administrative Review

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

SUMMARY: On May 29, 2014, the Department of Commerce (“Department”) published a notice of initiation of an administrative review of the antidumping duty order on certain activated carbon from the People’s Republic of China (“PRC”) based on multiple timely requests for an administrative review. The review covers 190 companies. Based on a withdrawal of the requests for review of certain companies from Calgon Carbon Corporation and Cabot Norit Americas Inc. (“Petitioners”), we are now rescinding this administrative review with respect to 165 companies.

DATES: *Effective Date:* September 16, 2014.

FOR FURTHER INFORMATION CONTACT: Emeka Chukwudebe, AD/CVD Operations, Office V, Enforcement and Compliance, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue NW., Washington, DC 20230; telephone (202) 482–0219.

Background

In April 2013, the Department received multiple timely requests to conduct an administrative review of the antidumping duty order on certain activated carbon from the PRC (“the Order”).¹ Based upon these requests, on May 29, 2014, the Department published a notice of initiation of an administrative review of the Order covering the period April 1, 2013, to

¹ See *Notice of Antidumping Duty Order: Certain Activated Carbon From the People's Republic of China*, 72 FR 20988 (April 27, 2007) (“Order”).

March 31, 2014.² The Department initiated the administrative review with respect to 190 companies.³ On August 27, 2014, Petitioners withdrew their request for an administrative review on 166 companies.⁴ Of the 166 companies, Petitioners also withdrew their request for review of Calgon Carbon (Tianjin) Co., Ltd. (“Calgon”). However, because Calgon also requested an administrative review of itself in the current segment, it remains part of this review.⁵

Partial Rescission

Pursuant to 19 CFR 351.213(d)(1), the Secretary will rescind an administrative review, in whole or in part, if a party who requested the review withdraws the request within 90 days of the date of publication of notice of initiation of the requested review. Petitioners withdrew their request for an administrative review on the 165 companies listed in the Appendix.⁶ Petitioners were the only party to request a review of these companies. Accordingly, we are rescinding this review, in part, with respect to these entities, in accordance with 19 CFR 351.213(d)(1).

Assessment

The Department will instruct U.S. Customs and Border Protection (“CBP”) to assess antidumping duties on all appropriate entries. For the companies for which this review is rescinded, antidumping duties shall be assessed at rates equal to the cash deposit of estimated antidumping duties required at the time of entry, or withdrawal from warehouse, for consumption, in accordance with 19 CFR 351.212(c)(1)(i). The Department intends to issue appropriate assessment instructions directly to CBP 15 days after publication of this notice.

⁶ As stated in *Change in Practice in NME Reviews*, the Department will no longer consider the non-market economy (“NME”) entity as an exporter conditionally subject to administrative reviews. See *Antidumping Proceedings: Announcement of Change in Department Practice for Respondent Selection in Antidumping Duty Proceedings and Conditional Review of the Nonmarket Economy Entity in NME Antidumping Duty Proceedings*, 78 FR 213 (November 4, 2013) (“Change in Practice in NME Reviews”).

review is being rescinded, as of the publication date of this notice, of their responsibility under 19 CFR 351.402(f)(2) to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this review period. Failure to comply with this requirement could result in the Secretary’s presumption that reimbursement of the antidumping duties occurred and the subsequent assessment of double antidumping duties.

Notification Regarding Administrative Protective Orders

This notice also serves as a reminder to parties subject to administrative protective orders (“APO”) of their responsibility concerning the return or destruction of proprietary information disclosed under APO in accordance with 19 CFR 351.305, which continues to govern business proprietary information in this segment of the proceeding. Timely written notification of the return or destruction of APO materials or conversion to judicial protective order is hereby requested. Failure to comply with the regulations and terms of an APO is a violation which is subject to sanction.
